## **“Sweet Delights”!**

The September program will feature some sweet treats and quilted delights to tickle your taste buds and inspire your creativity!

Please join us for an evening of fun!

Remember to bring your Show and Tell!

## **2010 Service Project - ConKerr Cancer**

Thanks to all of you who took border fabrics at the August meeting to make a pillowcase for our 2010 service project. Your pillowcases are due at the October meeting. We gave away all of our budgeted fabrics. If you decide you can't make a pillowcase with the fabric, please return it at the September meeting for someone else to use. If you didn't get fabric but still can help us by making a pillowcase, we'll have directions at the September meeting or you can go to the web site: [www.conkerrcancer.org/pillowcasedirections.html](http://www.conkerrcancer.org/pillowcasedirections.html)

## Fabric Hoarders Beware!

A recent study has indicated that **fabric gives off certain Pheromones, that actually hypnotize women and cause them to purchase ungodly amounts.**

When stored in large quantities in enclosed spaces, the Pheromones (in the fabric) **cause memory loss and induce the nesting syndrome** (similar to the ones squirrels have before the onset of winter, i.e. storing food) therefore perpetuating their species, and not having a population loss due to their kind being cut up into pieces and mixed with others. **Sound tests have also revealed that these fabrics emit a very high-pitched sound, heard only by a select few of breed of women known as customers.**

When played backwards on an LP, the sounds are heard as chants "**Buy me**" "**Cut me**" "**Sew me**"! In order to overcome the so-called feeding frenzy effect that these fabrics cause, one must wear a face mask when entering a storage facility and use ear plugs to avoid being pulled into their grip. (One must laugh however, at the sight of customers in a fabric store, with WW2 army gas masks and headphones!)

Studies have also indicated that **aliens have inhabited the earth**, helping to spread the effect that these fabrics have on the human population. They are called **fabric store clerks**. It's also been my experience that these same Pheromones cause a pathological need to secret these fabric purchases away when taken home (or at least blend them into the existing stash) and when asked by a significant other if the fabric is new, the reply is "I've had it for a while."
